ARCHITECTURAL SIGNAGE

September 8, 2008

To Whom It May Concern:

This is a letter of recommendation for Fleisher Products and Signs as a custom manufacturer. We have been working with Fleisher Products for over 10 years. They have provided us with a wide variety of custom signs to meet our architectural sign needs.

Mark offers decades of expertise in sign fabrication and has helped us produce signs in plastic, aluminum and stainless steel. He provides complete professional service and delivers projects on a timely basis. I would recommend his service to any business.

Sincerely,

Susan Rudolph
